

## Kohler x Arsham Rock.01 3D-printed Vessel bathroom sink; Limited Edition 99 Pieces

### Product Information

- Designed in collaboration with acclaimed contemporary artist Daniel Arsham, the Kohler x Arsham *Rock.01* 3D-printed sink brings together references of the natural world and Kohler's innovative 3D-printing technology as well as heritage foundry techniques. The collaboration is part of Kohler's Artist Editions legacy and Rock.01 is crafted in Kohler, Wisconsin. Limited edition of 99 pieces.
- The Kohler x Arsham *Rock.01* 3D-printed sink features an asymmetric vitreous china basin, made using the latest innovations in 3D-printed ceramics that Kohler has been developing over the past three years, perched on a cast brass 'rock' with a patina finish.
- The sink's walls are printed layer-by-layer, a modern-take on the primitive coil-building technique, and the overall continuous printing takes 7.5 hours.
- The coordinating brass piece required a similarly lengthy production process. Like its counterpart, it begins with a 3-D-printed mold, marked with the Arsham Studios logo. Craftspersons in Wisconsin then hand-cast each piece, later sending it through a lengthy chamber vapor patina process to arrive at its intended coloring.
- The method of 3D-printing with clay used for the vitreous basin is at the forefront of innovation for the industry, and Arsham's unique design is only possible to produce because of this new technology.
- For nearly 148 years, Kohler has been innovating with materials and manufacturing techniques that can give designers more creative tools. For Arsham, this meant using an entirely new way of creating a bathroom sink through 3D-printing.

- The Kohler x Arsham *Rock.01* 3D-printed vessel bathroom sink will debut at the co-created space at Design Miami/ and will be available in a limited-edition direct-to-consumer release in December 2021. *Rock.01* will also be on display at the Kohler Experience Centers NYC and LAX at release timing.

#### Product Specifications

- Material: Vitreous China and Brass
- Colors: Natural White and Oxidized Brass
- Dimensions: L 23.3" x W 15.41"
- Weight: 57.5lb / 26kg
- Edition size: 99
- Price: Available upon sink release
- *Shown in photography with KOHLER Components faucet tall tube spout with rocker handle in matte black*
